# ACEO MESSAGE

***Message from The Acting Chief Executive Officer***

*Assalamualaikum wbt..*

In view of the ever increasing electronic records produced by the state public sector, it is crucial to ensure that policies and processes are in place for their safe keeping and long term preservation. Apart from the born digital records, increasing amount of existing conventional records is continuously being digitized for easy access by users and also to prevent damage due to physical handling.

The International Research on Permanent and Authentic Records in Electronic Systems or InterPARES, involving researchers from 15 countries, looks into this issue and Pustaka Negeri Sarawak is fortunate to be involved with the Malaysian team headed by Assoc. Prof. Dr. Rusnah Johare. The InterPARES 3 Project International Summit and Symposium was successfully held at Pustaka recently.

The Ubiquitous Library project or u-Pustaka is now ready to serve the public through its portal at www.u-pustaka.gov.my. Users can request for books online and they will be sent to their address via Pos Malaysia service. This new innovation was initiated by Malaysian Communication and Multimedia Commission involving 8 libraries namely Perpustakaan Negara Malaysia, Perpustakaan Awam Negeri Selangor, Pahang, Negeri Sembilan, Sabah, Kuala Lumpur, Pustaka Negeri Sarawak and Perpustakaan INTAN. I hope readers in Sarawak will actively use this new service especially to get a hold of thousands of books available in the collections of these libraries.

Selamat berpuasa dan menyambut hari raya.

# CERAMAH KOMUNITI: KESIHATAN MENTAL

oleh Norlailawaty Bt Ismail (norlaii2@sarawaknet.gov.my)

Pustaka Negeri Sarawak telah menganjurkan ceramah komuniti bertajuk "Kesihatan Mental" pada 7 Julai 2011 jam 2.00 petang hingga 4.00 petang bertempat di Auditorium, Tingkat 1, Pustaka Negeri Sarawak. Penceramah jemputan bagi ceramah ini adalah Dr. Ismail Drahman dari Normah Medical Specialist Centre.

Ceramah ini adalah bertujuan untuk mengupas mengenai isu gangguan mental secara ringkas. Kewujudan gangguan mental di kalangan pekerja sering dinafikan. Malah di kalangan pesakit yang sedang menjalani rawatan pun seboleh-bolehnya tidak mahu sesiapa pun terutama rakan sekerja tahu masalah mereka kerana perkara ini dianggap sangat memalukan.

Penyakit mental bukan disebabkan otak yang lemah kerana otak pesakit mental masih dalam keadaan normal. Ia juga tidak ada kaitan dengan sahsiah atau kelakuan tidak baik mahupun cara ibu bapa membesarkan anak-anak. Gangguan mental terjadi apabila keseimbangan bahan kimia dalam otak terjejas.

Sesi ceramah pada petang tersebut dilanjutkan dengan sesi soal jawab diantara peserta yang hadir dan penceramah. Sesi ini diakhiri dengan penyampaian cenderamata dari Pustaka Negeri Sarawak kepada Dr. Ismail Drahman.

# SARAWAKIANA TALK: HOW MUCH IS THAT IN BEADS? BEADS AS AN EARLY CURRENCY

by Norlailawaty Bt Ismail (norlai2@sarawaknet.gov.my)

On June 23 2011, Madam Heidi Munan, the Hon. Curator of Beads at the Sarawak Museum gave a two-hour Sarawakiana talk titled 'How much is that in beads? Beads as an early currency' at the Special Collections Room, Level 1, Pustaka Negeri Sarawak.

She highlighted that beads had been used as currency in cultural and ritual contexts and in many cases, still serve such purposes. Today, the main application of beads is for ornamental and decorative purposes and for a wide variety of creative handicrafts.

Madam Munan also talked about the history of beads as value objects. Before money was generally used or available, beads took the place of an informal currency in many parts of the world. This certainly was the situation in Borneo in the past. The most precious beads have also kept their value as collector's items.

Sarawakiana talk for year 2011 is held on a quarterly basis, covering subjects on Sarawak's culture.
